(a) Prop. 1 vs. Monte Carlo
Monte-Carlo MSE
closed-form MSE
random
greedy
(b) random: solid, greedy: dashed
excess MSE over noise floor
k / r
r=1
r=2
r=4
r=8
r=16
(c) bounds of Prop. 2
k (r=4)
random (simulated)
lower bound
upper bound r/(k-r-1)
(d) Prop. 4: OLS inflation
measured OLS / oracle MSE
predicted inflation
